7 There can be no possible question about the necessary & permanent maintenance of this School It was not so much the existence of the High School as the proposed scale of establishment that was made tentative in the G.O of 7 Jan 1909

8 The present proposal may be sanctioned, and the DPI asked to submit a report about the confirmation of the school & its staff as early as possible There is no object in retaining it

9 There are complaints that the High School does not find room for as many candidates as wish to join its classes Such complaints are being heard only since the recent changes were inaugurated. I think it absolutely necessary that we should provide as large a staff as is necessary for a School which can take all those pupils (who are otherwise qualified) who seek admission After all when additional sections of classes are opened the fees they bring in are generally quite sufficient to meet the additional cost The DI may be informed that Govt is prepared to view favourably any proposal for enlarging the classes of the High School if there should be any necessity therefor
